[For the Lonlsville Conrier] City Attorney.

Amongst the virious candidates for the office of City Attorney, I see the name of A. M. Stout. Esq., our present excellent assistant City Attorney. The General Conneil created the office of assistant City Attorney, whose dutles are entirely distinct from the office of City Attorney, and appreciation to the management of extlore of rom the office of City Attorney, and ap-pertulus to the management of actions of a civil character, both for and against the

city.

Mr. Stout has held this office for several years, during which thuc he has discharged its lahors with an Industry and fidelity that should entitle him to the consideration and suffrages of all who may have felt an linterest in the property of this city. All the lawyers will bear testimony with me, that no one con d have tilled the office he now holds with more vigilance and fidelity.—This should give a pretty good assurance to the vours of this city that Mr. Stout will, if clested, discharge the duties of City Attarney with fairness, promptness, and idelity. As a member of the bar, though of other polities than Mr. Stout, I feel it of other polities than Mr. Stout, I feel my that to say this much in hehalf of wort integrity.

A ROMANCE SPOILED.—The New York correspondent of the New Orleans Delta states that Lola Moutez's last love was a young man named Follen, whom she pleked up in San Francisco and took to Australia. He had two girls nuder his charge and bearing his name. Who they were no one knows. They could not have been his daughters, unless he merried at the early age of ten. Lola and Follen quarreled like cat and deg, and he committed snicide, they say, in order to get rid of her. This was in 1856. Lola returned to the Luled States in 1857-58, with the girls.—She colled the elder one Minnie Montez, and, as she was very pretty, put her on the stage, and made money by the operation.—More than two years ago this girl was married, not to an officer of the Navy, but to a gentleman who was once our Minister to Nicaragna. So there could have been precious little education for her at a seminary in Troy, as the story goes, where the term is four years! Lola did tell her doctor that Minnie ——had ent her, and that she had had hysteries and smoked a great deal too much in consequence. Probably the romantic incident which the

Texas Military Affairs.

The San Antonio Ledger publishes an address to Gen. Twiggs, signed by seven eltizens as a committee on behalf of the order of K. G. C., representing one hundred and twenty of the responsible citizens of San Antonio, remonstrating against the concentration of U. S. troops at San Antonio, or any attempt of Gov. Honston, or any authority emanating from him, to obtain possession of the property of the Federal Government, unless the Convention delegate to him powers for that purpose; and declaring it to be their duty to prevent any similar attempt on the part of any unauthorized parties.

In compliance with this request, the Ledger says that Gen. Twiggs not only countermanded the troops en route for the city, but sent those already there back to their respective posts. Texas Military Affairs.

The Time Draweth Nigh. The 4th of March, 1861, strictly speal ing, will be the crists In our affairs.

At 12 o'clock on that day, Mr. Lincoln elected as the embodiment and representa tive of an "hrepressible conflict" agains \$4,000,000,000 of property owned and held by eltizens of the American Union on the 6th of November last, and against the institutions of tifteen sovereign States, will be lnaugurated as President of the United

Aud however they may be perverted, these are the objects for which all government is founded; and to these ends all the powers of all the departments of government should be direct-

In some parts of the world anarchy and confusiou prevail, and neither life, nor lib erty, nor property is safe: In other countries the reins of power are held by despots and tyrants; but after Monday next, our own Confederacy will present the only instance, in the old world or the new, among civilized nations in which the Governmen is used avowedly and professedly to injurand destroy, not to protect, the properly of its cltizens.

Here, an institution so interwoven with the social, domestic, economical, and political relations of fifteen States as to render any interference with It destructive to the vital interests of twelve millions of people, will be outlawed by the accession to power in the Federal Government of those who believe and have solemnly asserted that "slavery" is a "relic of burban inn;" the "irrepressible conflict" will be come the policy of a common government of all the States of the Union : and the most important property interest in the old Union would, but for the action of the Sc. ceding States, have been put in process of annihilation.

One crisis was passed, when, on the 20th of Desember last, the people of South Carollua solemnly dissolved their connec tion with the Contederacy known as the United States of North America: the subsequent action of Georgia, Alabama, Louis laua, Mississippi, Texas, and Florida was anticipated, and followed naturally and under the circumstances inevitably. The Union was then dissolved.

Another crisis is now at hand; and the is sue is peace or war. On Monday next l will be determined for weal or woe. And we are scareely left to doubt what the re-

War will follow We have inderstor any attempt to treat them as parts of the Union whose capital is at Washington; any attempt to execute the laws of that Union in the new Confederacy is war; and peace can be preserved only by the Administration that will be inaugurated on the 4th proximo, practically at least conceding the of facts in the telegraphic news we regnndependence of the seceding States.

What the policy of that Administration is determined on now; and in the rush of of the events of the day; but the opinio events we see nothing to justify a hope of the reporters generally we think that it will be modified or changed; and that policy is, adherence to the Chicago programme, the enforcement of the lawof the Union in the States that have withdrawn, the collection of the revenuin the ports of the Southern Confederacy. the recapture of all the forts and arsenals which those States as a measure of defense have taken possession of, and the punish ment of these whom Northern fanatics and Southern demagogues are pleased fo their own ends to consider traitors.

The consequences of this policy will rest upon the heads and consciences of those who couceived, sustalu, or encourage it and the blood of all the gallant men who may perish in the unholy war waged by madness and folly and cowardice against men for preferring liberty and Independence to lucquality and degradation, will rise np from the ground to curse the statesmen and politicians of the North who are provoking it and the Southern torics who aid and encourage them.

Even yet men have not become accus tomed to look upon the discolution of the Union as a fixed fact; and we fear that few realize the imminence of the dangers now noon us. Our fellow-citizens have beer tanght to believe that their "Northern hrethren" wik yet do justice, and preserve a Union already unmbered among the things that were; and they caunot conceive that the purposes of the Free State Administration, soon to be in power, are such as those who have watched more closely the current of events know will be

The Journal has a communication in favor of Mr. James R. BARRICK for State

We can heartily indorse all its corre pondent says of the personal tituess of Mr. BARRICK for any position to which he may aspire or for which he may be jut forward as a candidate.

If we are not mistaken, Mr. BARRICK has recently expressed views in reference to pending sectional difficulties in which we and all true friends of the South would

What, however, we desire to say at present. Is this: We heard at Frankfort, about called session of the Legislature, that that portion of the Senators and Representatives who supported Bell and Douglas in the recent canvass for President, and were at the time of which we speak opposed to any Convention of the State, and opposed to submitting the question of a Convention to the people, and really in favor of submission to the exercise of the usurjed powers contemplated by the Black Republican party, agreed to support Mr. Bark first Rick for Treasurer. It is proper to add, that It was nuderstood finat one or more of those who were recently for Mr. Berrangement, while several supporters of both Mr. Bell and Mr. Douglay, in the the period of adjournment of the recent both Mr. Bull and Mr. Dorgi, in the

Legislature, had no part in it.

It is proper that this should be known, if true, and denied, if false, if Mr. BARRICK intends making the race.

It seems that Gen. THE PEACE CONFERENCE,

Excitement and Indignation at Richmond!

From Washington.

WASHINGTON, Feb. 25 .- The third claus The War Department to-day receive

The War Department to-day received corroborative dispatches that Gen. Twiggs had surrendered to the Texas rebels all the Government military property. Sceretary Holt had dispatched orders to relieve him, but they could not have arrived.

The most reliable report of the construction of Lincoln's Calinet is Seward, Secretary of State; Bates, Attorney-General; Gilmer, ol North Carolina, Secretary of the Navy: C. B. Smith, Secretary of the Navy: C. B. Smith, Secretary of the Interior; Willis, Postmaster-General; Cameron, Secretary of the Treasury.

Dispatches to Government report a large expedition leaving talvesion for the Rio Grande, consisting of six companies from talvesion and llouston, and two from the interior. The object is declared to be protection to the frontier in the event of the United States trops being withdrawn.—Col. Ford, an old ranger, commands the regiment.

Despite exciting rumors brought to the city last night Mr. Lincoln slept and rested well. To day President Buchanan, Mr. Stanton, and other prominent Democrats called on him.

Lord Lyons and the Ministers from France, Frussia, Spain, and elsewhere, left their cards with him, as did also the Secretaries of the various Legations. General Scott, Seward, and several prominent Republican Senators were closeted with him this morning concerning the ecremonles connected with his hanguration.

At a general levee given by Mr. Lincoln, several hundred gentlemen from all sections of the country paid their respects to him this morning. He visited the Senate and House of Representatives.

Mt. Wood, manager of the Presidential trip, called to report this morning to Gen.

Mr. Wood, induager of the Presidential trip, called to report this morning to Gen. Scott The General told bim that everything had been done as it should have been—that he approved of every step, and Mr. Lineolu did exactly as he should have done when he left Harrisburg and came through, via Paltimore.

Information is before the proper authorities tending to prove that an organized body of 500 men have sworn that Mr. Lincoln shall never sleep in the White Honse. A driective who joined them says the plan is as follows:

The entire hand are to occapy a position as near the President on inauguration day as they can obtain, one of their number standing in the center of them is to shoot Lincoln with an nir-gun, when the crowd of men around the meassasin will so hide him as to render detection impossible. Further details may be obtained to-high, though for many rensons it is deemed advisable to withhold definite information.

A document was handed to Mr. Lincoln to-day signed by a majority of the Indiana State Scuate, headed by the Licut. Governor, recommending Mr. Coffax for Postmaster General. Mr. Lincoln observed that this was very strong, and there seemed a very general desire in many parts of the country that Coffax should have the Jostion indicated.

The Peace Convention has been is session

The Peace Convention has been is session that The deleter than the deleter The Peace Convention has been is session all day. The debate was the most spirited whileh has yet ocentred. Mr. Guthrie and some of his friends became so much offended that they left the hall, and signified an intention not to go back. The Convention, at one time, was very near breaking up, but hetter counsels prevailed. Mr. Guthrie subsequently commed and business proceeded at seven o'clock. Some members stated that a night session was probable. There is no hope of an adjournment to-morrow.

The tovernment scens to have made more than one effort to get possession of the bullion fund in the New Drieaus Mint. Postmaster General King, on the 19th inst, drew on Mr. Guizot, A-sistant Treasmer of Lonisiana, for \$300,000, but his draft, like Sceretary Dix's, was dishonored.

WASHINGTON, 26.—The dispatch received vesterday by the Sceretary of Washington and surface the military property to the Revolution ists in Texas, was from the Commissary of Subsistence, and dated at New Orleans.—He adds that the use of the Government means of transportion was allowed to take the Federal troops to the seaboard, and they were permitted to take with them three or four cannon and their side arms. The Sceretary received this morning the documents from Texas, showing that as early as the 6th of February, Gen Twiggs was entering into negotiations with the Texans for the surrender of the military property.

Col. White was several weeks ago appointed to succeed Gen. Twiggs as chief elthe military department of Texas, but it appears he had not reached there at the time of Gen. Twigg's surrender, which is considered by the Government authorities as one of the most disgracefully atrocloss accommitted by the Sevessionlets.

The Peace Conference was in session the of the night's proceedings many if not all of the amendments were voted down, leaving substantially Mr. Gutbrie's proposition, with modified verbiage. This was in Committee of the Whole, but k will be voted on deinitely to-lay.

TW Branache is the favorite sign by which had the bakes kn'wm any deviation whatever from the na oral state of the brain, and viewed in this light if any be looked on as a safeguard intended to give actice of disease which might otherwise escape at cution, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedually common and is the precursor of a great warlets of diseases, a monor which are Apoplexy, Gout, Rhen atism, and all febrile discases. In its nervo re also affections which frequently occasion flex-che. Idiopathic Headache Is also very common eling usually distinguished by the name of nercon-addiche, sometimes coming on suddenly in a state apparently sound health and prostrating at once mental and physical energies, and in other lees it comes on slowly, herabled by depressing stance it comes on slowly, heralded by depression of spirits or accrbity of temper. In most instance the pain is in the front of the head, overone or beyes, and semestimes provoking vomiting: under this class may also be acmed Newr Upits. Per the treatment of either class of Headacaeth. Copitalle Fills have been found a sure and safe remedy, relieving the most acute pains in a few minutes and by its parts. and by its subtie power eradicating the diseases which Headache is the unerring Index.

Constipation or Cositiveness,

No one of the "many ills fiesh is helr to" is so prelent, so little understood, and somuch neglected a obstiveness. Often originating in carelessness, o edentary habits; it is resurded as a slight disorde f too little consequence to excite anxiety, while is reality it is the precursor and companion of man of the most fatal and dangereous diseases, and us of the most fatal and dangereous diseases, and unless carly cradicated it will tring the sufferer to sin untimely grave. Among the lisher evils of which cositiveness is the usual attendant are Headache Colle, Rheumatism, Foul Breath, Piles, and others of like nature while along train of frightful diseases such as Malignant Fevers, Abcesses, Dysentery, Diarrhea, Dyspeysia, Apopleys, Fpilessy, Paralysia, Hysteria, Hypochondriasis, Melancholy, and Insonity, first indicate their presence in the system by this alarmine symptom. Not unfrequently the diseases named originate in Constitution, but take en an independent existence unless the cause is cradicated pendent existence unless the cause is erac an early stage. From all these considerations it allows that the disorder should receive immediate itention whenever is occurs, and no person should select to ket a bo of Cephalic Pills on the first, arrance of the complaint, as their timely use at expel the insidious approaches of disease and d stroy the dangerous foe to human life.

Corn at New Orleans.—The Abolition papers of late have been very industriously lying about the trade and commerce of New Orleans, representing that they had dwindled away almost to nothing. OFFICE LOUISVILLE COURIER, TUTSDAT EVEN'G, Feb. 26, 1861. The movements in financial circles developed nothing new to-day. The demand for money was very small, and in all cases where good paper was offered it was readily met at the usual rates of interest. Ex-

hange and uncurrent money are the same as before reported.

In the general market but a small amount of business was done, though things looked much brighter than for some time, owing to the fact that the Nashville Railroad was receiving goods during the entire day and that they were shipped through. The demand for flour was small, at \$4 50@\$5 65 for superfine to fancy family brands. Wheat is quiet, with a small demand at \$1@\$1 10 for prime red and white. The demand for corn was larger to-day than for some time, and prices were firm. The sales to-day were made at \$40@\$5c for mixed to choice white shelledd, sacks included. Oats are quiet as before reported. helleed, sacks lucinded. Oats are quiet and unchanged. Whisky is steady and

In the grovery market there was a much better demand for sugar, and the sales amounted to over 150 hhds at 6½@7½c, the market closing very firm at our quotations. Molasses is very firm with a good demand at 32@33c for barrels and 35@36c for half harrels. Coffee is steady at 1334@14c.

The provision market remains quiet, with but a small demand for mess pork, and the sales were illusted to 27 bbls city packed at \$16 75. The market closed rather firm, though holders were still very willing to sell at our quotations. The demand for bacon was only understead and single also been as only quotations. The demand for bacon was only moderate, and small sales were made on Southern orders at our range of prices given yesterday. Lard is very quiet, with small sales at 9½ c for therees. There was some little inquiry for bulk meats to-day, and the sales were 8, 000 pounds at 6½ c for shoulders and 8½ c for rib sldes.

The Republicans were accused of meditating coercion, when everything done and said had no such bearing. The gentleman expressed the hope that the bill would speedly pass, for the purpose of arousing Virginia and the South. He did not thus speak to reason, to the bill, did not thus speak to reason, to the bill, or to Congress, but to the Convention of Virginia and the Assemblies of the South, who are taking action against their own mother country. The gentleman's own statement, that a Confederacy exists within the United States, should induce us to draw around ourselves uil the means of power and protection we can command.—The bill now pending was for defense. He contended that there was nothing unconstitutional in the bill, which only extended the provisions of existing laws.

Mr. BURNETT asked whether it was the purpose of the Republicans, under this bill, to reinforce forts in seceded States now held by the Federal Government; to recapture forts taken therein unless they shal be surrendered.

Mr. CURTIS replied that his purpose was to support the Constitution as it is until some power shall be vested in him to do otherwise. He had sworn to support the Constitution, and must do so. It may not be necessary to reinforce those forts in the present exasperated state of the public mind. He recognized rebellion and civil war as existing in the South. He would resort to all honorable means to avoid a conflict of arms, and did not believe it would be necessary to move an army thither until the people carry their hostilities against the United States to such an extent as to demand it.

Mr. BURNETT said—Though not settle.

Mr. BURNETT said—Though not satis fied with the auswer, I must accept it.—
He asked another question: In executing and enforcing laws, do you hold it necessary in so doing to reinforce the Southern forts in possession of the Federal Government, and to recapture the property?

Mr. CURTIS replied that he was not going to say, in public and in open session, what it may be the duty of his country to do, and would only speak of designs and measures in secret session, if they were for hostile purposes.

The murderons are was wielded by persons skulking in the Executive chamber and Senate of the United States, striking their own mother, their mother country.

Mr. BURNETT spoke against the bill and in favor of the recognition of the fact of the existence of a separate government in the seceded States. In arraigning the Republicans, he said they had rejected all propositions from Border States, and to accept less than what they demand was dishonorable.

Action of the Masons, The following eircular from the Grane

Jaster of the Masonie order ln Kentucky will be read with interest by all the mem bers: OFFICE OF GRAND MASTER OF GRAND

LODGE OF KENTUCEY, STANFORD, Ky., Feb. 16, 1861.

STANFORD, Ky., Feb. 16, 1801.

To the Masters, Wardens, and Brethren of the Lodges subordinate to the Grand Lodge of Kentucky:

BRETHER: My attention has been called to the fact that two of the Lodges of Kentucky have, since the last Grand Annual Communication of that body, departed from the teachings of Masonry by passing resolutions of a political character and publishing the same in the public journals of the day. A personal acquaintance with many of the brethren who have participated in the proceedings referred to, warrants me in the belief that, however impolitic their action may have been when viewed in the light of Masonle experience, they were nevertheless actuabeen when viewed in the light of Masonle experience, they were nevertheless actuated by pure and patriotic motives. It is a duty incumbent upon me, however, to warn my brethren of the danger of ever losing sight of the time-honored customs of our institution; and whilst the right of every Mason, as an individual, to enjoy and express in a proper manner his opinions upon all political topics is unquestioned, it is a manifest departure from the usage, as well as the policy of the Craft, to enter the arena of politics as Musons or as Lodges.

It is the boast of our institution that dif lt is the boast of our institution that differences of oplnion, whether of a polltical or religious character, are never suffered to weaken the tles of affection and brotherly love that blinds us so closely together. Charity is the corner-stone of our editiee, and in the observance of this fundamental principle is the only hope for the perpetuity of Masonry. In the language of the Ancient Charges, with reference to religiou, it is in leaving the particular opinions of all men to themselves; that is, requiring Masons to be "good Men and True, or Men of Honour and Honesty, by whatever Donominations or Pressasions they may be distinguish d; whereby Mosmery becomes the Ceater of Union, and the Means of Conciliating true Fricadship among Personathat must have comained at a perpetual Distance." It is obvious that this charge applies with equal force to the respect due to political as well as religious opinions.

The enemies of Masoury have objected to the Institution upon the ground that it was perverted to political ness—charging that it was in fact, but a party engine. It is is the opinion of well informed Brethren, that in some instances the Institution was

cqual force to the respect due to political of failure to obtain relief, it is her duty to provide for the future relations she is to occupy as one of the Southern States. He made a long speech, denying the constitutional right of secession, but there was a revolutionary reunedy for wrongs. He wanted a constellation of the Border States to form a Confederacy and invite others to join. He believed Virginia insecure in a Southern Confederacy. Adjourned.
